Dear Mr. Beasley:

I am writing to you on behalf of the Wayne Unit of the American Cancer Society.

I wish to notify you of my organization's willingness to become a member of the Detroit coalition that will develop strategies to reduce cigarette use as part of the statewide Project ASSIST effort. This coordinated approach is essential if we are to reduce, and ultimately eliminate, the incidence and tragic effects of cigarette smoking in our city.

We look forward to participating on the coalition and wish you success with your proposal.

Sincerely,

Clarence E. Wilson, Ph.D.
Executive Director
